Can you find the **TEXTBOX TOOLBAR?** (**VIEW - TOOLBARS**, and then select **TEXTBOX**). Click on the textbox you start with and then click on the **CREATE TEXT BOX LINK** icon. Then, click on the next text box that you want to “fill” when the first one is complete. Text will automatically “flow” through the pagelayout you create.

To show you how this works, I am going to fill this layout with Lorem ipsum.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis vehicula ultricies orci. Integer ornare, risus eu commodo vulputate, est felis egestas metus, tristique tristique magna mauris ut mi. Praesent erat risus, suscipit nec, eleifend quis, rhoncus tempor, dolor. Sed in turpis eget wisi fringilla faucibus. Ut eu lacus. Etiam imperdiet, nulla eget laoreet mollis, urna eros dictum nibh, at cursus tellus augue vitae quam. Sed tincidunt lacus nec magna.

Aliquam erat volutpat. Nunc enim lacus, nonummy vitae, euismod in, ultricies eu, tortor. Phasellus vel magna. Cras faucibus nonummy justo. Donec nibh lorem, egestas vitae, pulvinar ut, euismod vitae, sapien.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.

It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum. WordArt with a AUTOSHAPE for the Box

This text is in a textbox, placed “inside” the rectangular AUTOSHAPE – that way, it is easy to reposition as needed to complete the “ad” I like to use a 2-color, gradient fill. Can you find the **FILL** icon on the **DRAWING** toolbar?
