LessonPro	LessonPro is a free program that allows teachers to write lessons and students to study the lessons on-line via Internet browsers from anywhere around the world at anytime. Provides K-12 educators an easy way to write instructional lessons for the Internet. We know that teachers don't have time to learn difficult programming language or special coding in order to write lessons for the Internet. Our goal has been to make the Internet easy for teachers to integrate into the teaching learning process. LessonPro is offered free to allow teachers to tap into the exciting possibilities available when using the Internet in instruction.
